*A .5m stacking cable is included with each switch purchased above. Based off the configuration of the switches for each building the number of longer (1M) cables needed for the installation has changed to 1 x (1M) stacking cable for Center, 1 x (1M) stacking cable for Oblock Junior High and 2 x (1M) stacking cable for Plum Senior High School/District Office. This change is reflected in the bid proposal quote as well as the spreadsheet above. See Included CCL quote sheet for further description.

Please Note: Per communication with Maggie Taylor at Epic Communications via email on 12/22/2015, no services are to be included with RFP. Installation and configuration services are available and can be quoted, if requested.

CCL Technologies History and Scope

Computer CenterLine of Greensburg Inc, doing business as CCL Technologies (CCL), has been in business for over 25 years. Computer CenterLine began as an educational software and computer reseller to school districts in PA, GA, and FL as well as small businesses. In 1999, the shift (along with the new name) was made to focus exclusively on the K-12 market in Pennsylvania. CCL expanded our portfolio and services to include networking infrastructure, wireless networks, servers and corresponding operating systems, security and outsourced IT helpdesk and network support. CCL is listed as a Premier Partner in Education for Cisco Systems, Hewlett Packard, and Lenovo. We are proud to consider ourselves a leading expert in IT for education; understanding school district cycles, budgets, and needs.

E-rate Program Experience

CCL Technologies has been actively involved with the federal E-rate program since its inception in 1997. In addition to our knowledge of the various forms and billing requirements, CCL keeps current on new rules and regulations such as eligible vs. ineligible items, RFP submissions, and timelines. Staff has always, and will continue to, attend all necessary training and webinars needed to keep current with this program.

We have worked with many school districts and intermediate units over the last 18 years in quoting and fulfilling their E-rate projects; all have been successfully completed and billed according to E-rate guidelines.
