

Plum Senior High School - Program of Studies 2012-2013

Eliminations:

DRIVER'S THEORY AS A GRADUATION REQUIREMENT BEGINNING WITH THE CLASS OF 2013 (CHANGING GRADUATION REQUIREMENTS FROM 25.8 CREDITS TO 25.5)

930 Drivers Theory

Grade 9-12

Level 2

.50 Credit

2/6 Day Cycle

This theory driven class takes place exclusively in the classroom setting. The numerous topics of instruction relate to safe driving and owning a vehicle. The class begins with the responsibilities of driving a car and obtaining one's driver's license. Instruction then moves to content related to signs, pavement markings, traffic lights, and right-of-way laws. The class also focuses on driving in different environments (residential, open highway, business areas, highway & expressways, school zones, city, etc.) and weather conditions with various types of vehicles on the road. Emphasis on how drinking and driving impacts one's ability to drive a car and the related consequences are made very clear. The class concludes with instruction regarding purchasing and insuring a vehicle and learning to read and use a road map and other navigation tools and resources.

931 Drivers Theory - Online

Grade 9-12

Level 2

.50 Credit

2/6 Day Cycle

This theory driven class takes place in as an independent course through MOODLE. The numerous topics of instruction relate to safe driving and owning a vehicle. The class begins with the responsibilities of driving a car and obtaining one's driver's license. Instruction then moves to content related to signs, pavement markings, traffic lights, and right-of-way laws. The class also focuses on driving in different environments (residential, open highway, business areas, highway & expressways, school zones, city, etc.) and weather conditions with various types of vehicles on the road. Emphasis on how drinking and driving impacts one's ability to drive a car and the related consequences are made very clear. The class concludes with instruction regarding purchasing and insuring a vehicle and learning to read and use a road map and other navigation tools and resources. Students will cover just as much information as what is covered in a classroom setting. This course can help one receive a discount on your car insurance.

Changes:

- Plane Geometry with Lab will no longer have a lab period.
- Algebra I will have a lab period – due to the 2012-2013 implementation of the Algebra I Keystone Exams.
- General Chemistry will no longer have a lab period.
- Biology and Advanced Biology will have a lab period – due to the 2012-2013 implementation of the Biology Keystone Exams.

Curricula in Algebra I, Biology, Advanced Biology and 11th grade English are being reviewed and adjusted to fit the specific eligible content and assessment anchors of the Keystone Exams as defined by the state.
