Gentlemen,

FYI: I received notification from the Air Force that I have been funded for 2012/2013 in the amount of \$26,825 to support our program. This money does **NOT** come through the districts finance office, and is not included in our budget or dollars to offset our cost to the district. This money is available for me to spend on Plum JROTC students via our WINGS system. Thought you should know what dollars are coming into the district for our students.
Scott
