

Plum Borough School District School Performance Profile Scores 2016–2017

~presented November 8, 2017

What is SPP

Federal accountability and PA law (Act 82) require that schools look at multiple criteria as a measure of effectiveness and adequate growth. SPP is the tool used in PA to achieve this.

What multiple measures does SPP look at?

ACHIEVEMENT SCORES (PSSA & Keystones)

Math proficiency rate
Reading proficiency rate
Science proficiency rate
Writing proficiency rate
Industry proficiency rate
SAT Scores

Multiple measures

CLOSING THE GAP

The state wants us to have half as many non-proficient kids in six years than we have now. Are we on track? (ex: if we are 40% proficient now, we need to be 70% proficient six years from now, growing 5% a year to reach that goal)

- SPP looks at all students
- SPP looks at *Historically Underperforming* – group made of econ disadvantaged, special education, and ESL

Multiple measures

GROWTH

Did our kids make growth as expected by the state statistical models?

No (not good)

Yes (good)

Exceeded growth expectation (even better!)

Multiple measures

OTHER

What percentage of our kids graduated?

What was our attendance rate?

Does our school offer AP/IB/College courses?

How many of our kids took the PSAT/PLAN test?

Multiple measures

EXTRA CREDIT

Math advanced rate

Reading advanced rate

Science advanced rate

Writing advanced rate

Industry advanced rate

AP/IB advanced rate
