Only kindergarten and regular classrooms 660 square feet or greater should be reported. Although special education rooms and pre-school rooms may be eligible for capacity, these spaces should not be included in the room counts reported above. The following spaces do not receive reimbursable capacity and therefore should <u>not</u> be included in the capacities for an elementary school building: science labs, computer rooms, art rooms, music rooms, small and large group instruction rooms, and multi-purpose rooms.

ACT 34 OF 1973: SUBSTANTIAL ADDITION DETERMINATION	
Act 34 of 1973 applies to all new school buildings, district administrate offices, and substantial building additions. A building addition is consubstantial when its planned architectural area divided by the existing structure's architectural area is greater than 20%. If your project incan addition, use the following calculations to determine the applicability of Act 34.  G. Architectural Area - Addition 10,520	nsidered cludes ity  0 sq. ft.
H. Architectural Area - Existing Structure 36,708	8 sq. ft.
(G divided by H times 100) 28.66	
Act 34 of 1973 requires a public hearing and the distribution of specific project information for school construction projects involving the construction of a new building or a substantial addition to an existing structure. If Act 34 hearing requirements apply to this project, draft copies of the Act 34 hearing advertisement and the project description must be submitted to the Department of Education for review and approval prior to advertising for the hearing as well as prior to their publication and public distribution to ensure that all Act 34 requirements will be made this project.	l ion
