June 20, 2017

Dear Dr. Timothy S. Glasspool,

Please find enclosed the Waterfront Learning Contract and pricing information for the 2017-2018 school year. During the last several months, continued negotiations have transpired with a new vendor partner to add to the suite of comprehensive services and customized learning pathways for our districts and students. This year, we are happy to announce Waterfront Learning will once again be providing services K-12 at consortium level pricing. This includes additional concurrent and site based license options, student gifted and talented services, enrichment/remediation and hybrid learning design packages. This suite of services is now available to all of our educational learning partners. Brief highlights of updates and changes in the upcoming 2017-2018 school year follow:

**Pearson Online and Blended Learning K-12**

This new vendor will provide innovative options for new and rigorous student services. Pearson will be one of two providers for K-12 digital options. This vendor brings to the suite new and exciting opportunities: full suite of elementary specials, including languages and technology; gifted and talented courses 3-8; Chinese and Japanese languages, as well as level IV in additional world languages; and lastly, comprehensive AP courses. The instructional services will be provided by highly-qualified, PA certified teachers in addition to wraparound services. If there is interest, we will also go through a vetting process with LiveSpeech services. Concurrent license options will allow delivery to be an option for educational staff.

**EdisonLearning, Inc. (Grades K-12)**

This vendor is in the process of creating new honors courses and Phase 1 of Project Based Learning course options. We are looking forward to additional areas of growth in STEAM and career pathways for the new year. In addition, continued vendor benefits include: a free trial period, live instructional supports, unlimited courses for full-time students, student specific support advisors providing student intervention services, highly-qualified PA certified teachers, Genius Student Information System integration, and the ability for course content modification and diagnostic testing.

**Edgenuity (Grades 6-12)**

Waterfront Learning continues to capitalize on the strength Edgenuity offers through its instructional and content teams. The new partnership with Calvert Education will provide K-5 elementary services, which will allow Edgenuity to deliver a K-12 digital suite of student options. Students enrolled in this video-based system will again benefit from live help and support for core courses. Opportunities for AP and Dual Enrollment courses continue, coupled with student support coaches, highly-qualified, PA certified teachers, and Genius Student Information System integration. All these features are included in the tuition costs. One additional service option for this vendor is comprehensive personalized remediation and assessment pathways. Various customized licensing options are also available for those districts wishing to utilize Edgenuity content by your teachers.

### **Odysseyware (Grades 3-6)**

Odysseyware will be an option for current license subscribing districts only this year.

### **Zulama**

Zulama courses, utilizing a Waterfront Learning teacher or your own, will be available for the upcoming school year. Waterfront Learning is pleased to offer courses in game design, coding with GameMaker, and making mobile games.

### **First Steps Driver's Theory**

Waterfront's partnership with First Steps brings with it not only a PDE approved Driver's Theory course experience, but one that is PennDOT approved as well. Students completing this nine week, pass/fail course may be eligible for reductions in auto insurance rates depending on their insurance carrier. First Steps has just launched a new course refresh for the 2017-2018 school year.

In addition to our online vendor partnerships, it is our pleasure to continue to bring new and innovative options to your district. Virtual and Hybrid Instructional Design Planning, Recover Now!, and Summer Enrichment courses are just some of the ways Waterfront Learning collaborates to meet your needs.

Enclosed you will find two copies of the Waterfront Learning Contract for services for the upcoming 2017-2018 school year. Regardless of full-time or part-time status, all students enrolled will participate in our auto-call system aimed at identifying students who have not completed online activities in five sequential school days. Tiered intervention supports, aimed at identifying struggling students and communicating that information to district liaisons, is a program deliverable for all participants.

We are very excited about partnering with your district and look forward to meeting your virtual and hybrid needs through our comprehensive suite of services. Please sign the included contracts, mailing both of them back to Waterfront Learning. After the AIU Board approval, one of the contracts will be mailed back to you for your records. Should you have any additional questions about the attached contract, pricing addendum, and/or implementation of online services, please feel free to contact Waterfront Learning.

Sincerely,

Jennifer R. Beagan
